

Yiseo Kwon (Joy)

WEB DEVELOPER

Web developer with around 3 years of experience in web development, user interface design, testing and debugging. Building visually stunning and user-friendly websites with clean code

Relevant Experience

Junior Web developer • Carvazo

May, 2020 - March, 2022 | Korea

- Developed and maintained clean, organized, and well-documented code to facilitate ease of maintenance and future updates
- Collaborated closely with designers to create user-friendly websites, focusing on enhancing user experience and interface design
- Implemented cross-browser compatibility and responsive design techniques to ensure optimal user experiences on various devices
- Led the end-to-end development and management of multiple web projects as the sole web developer, ensuring consistent design and functionality

Certificate

Full Stack Coding Bootcamp • Washington University of St. Louis

June, 2023 - November, 2023

- Gained a comprehensive understanding of the entire web application development process
- Acquired valuable collaboration skills through participation in three group projects, effectively working alongside fellow students to achieve project goals
- The experience provided an opportunity to refine foundational knowledge and specialize further

Education

Computer engineering • Hanyang Cyber University

March, 2020 - February, 2022 | Korea

While engaged in my professional career, I aspired to acquire comprehensive programming skills. Over the course of two years, I pursued online courses at Cyber University to enhance my proficiency in programming.
